

**DIRECT-MAT Final Workshop
Brussels, 18 October 2011**

Knowledge gaps & research issues

Yannick Descantes

IFSTTAR (project coordinator)

Chantal de La Roche

IFSTTAR (project scientific advisor)

The project has received funding from the European Community's Seventh Framework Programme FP7/2007-2013) under grant agreement n°218656

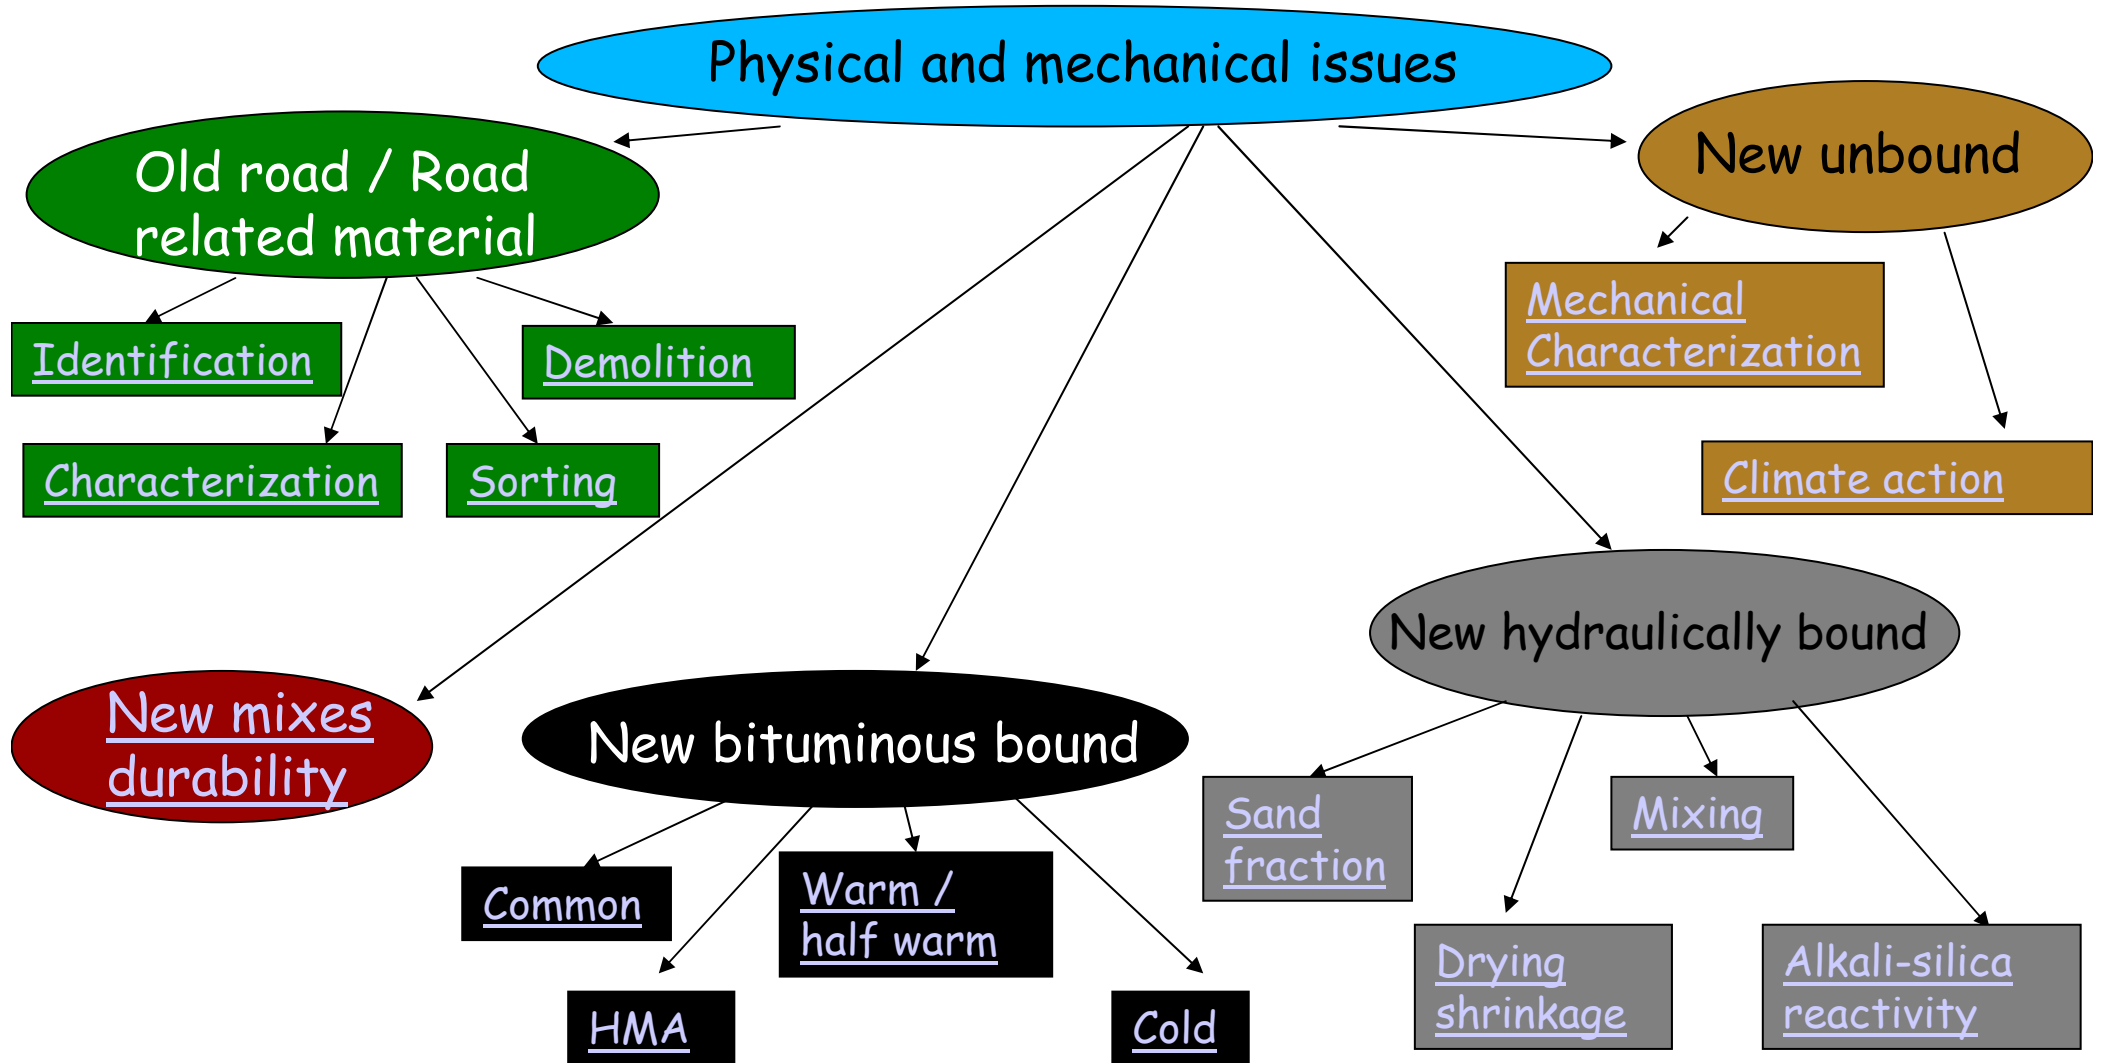

Objectives, layout and strategy

- Objective: integrate European research & development (R&D) issues on road infrastructure
 - Describe R&D issues that are common to European countries
 - Establish a priority list
- Layout
 - R&D issues organized in two frameworks: Physical and mechanical issues; Environmental and health issues
 - Interactive presentation with clickable links
 - Each clickable link points to one or more detailed R&D issue(s)
 - Each R&D issue consists of four parts: context; R&D issue; priority levels; comments from the audience
- Strategy: first, go through the presentation, then discuss each R&D issue and assign priorities/make comments

⇒ We are going to work together!
