

**DIRECT  
MAT**

# Dismantling and RECYcling Techniques for road MATerials - Sharing knowledge and practices

WP6 - Web database on dismantling  
and recycling road and road-related  
materials back into roads

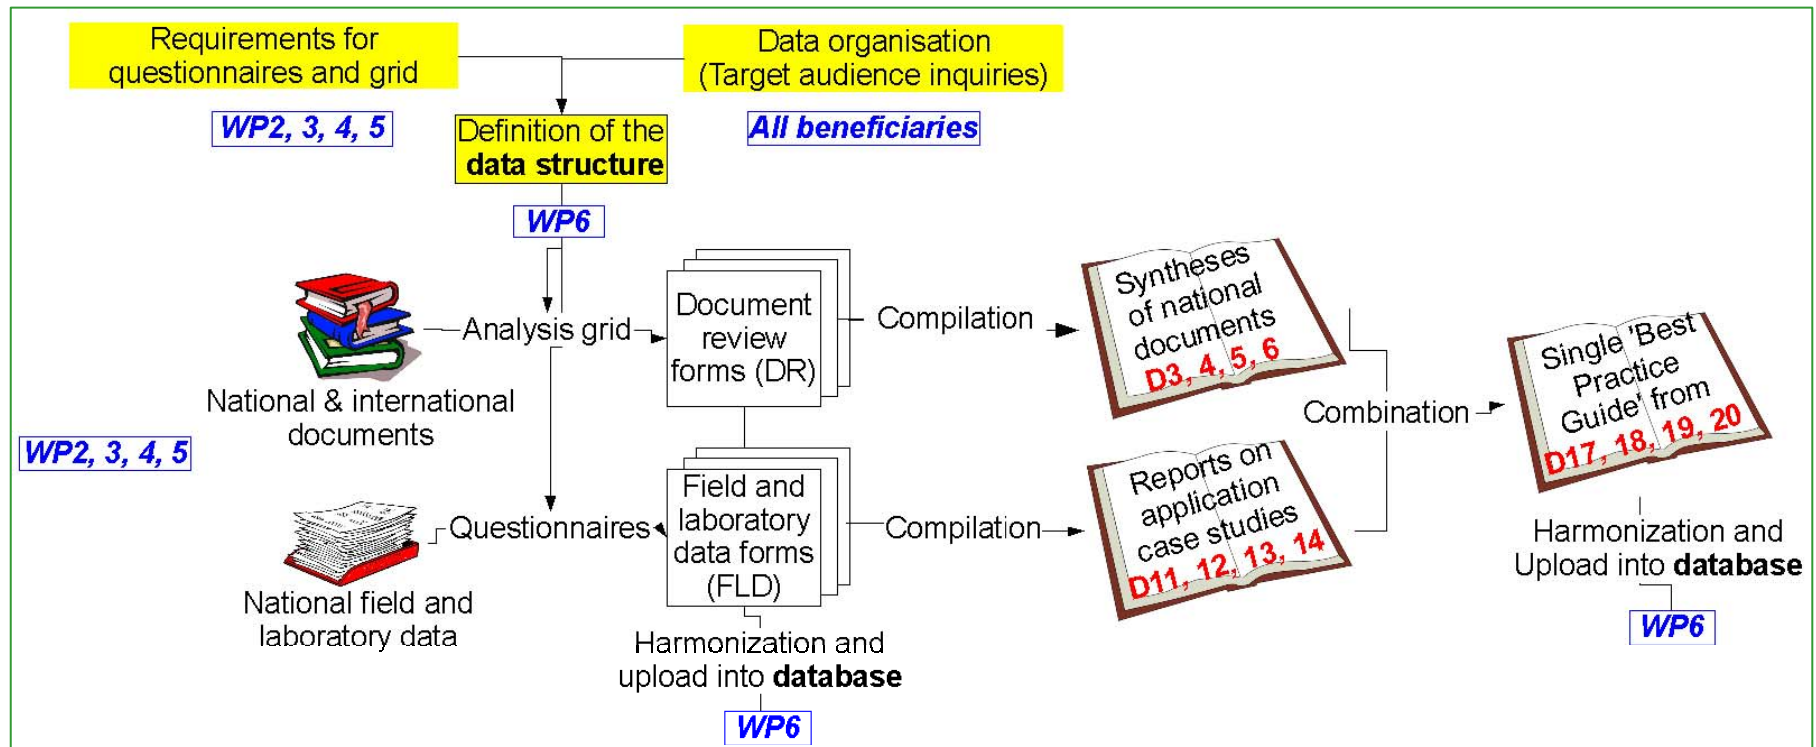

# What WP6 do?

---

- builds a **Web database** containing the reports and best practice guides produced by the other Work Packages
- defines the general **database framework** (use of an on-line questionnaire available on the project website)
- programs (subcontracted), tests, debugs the database software
- Provides a **maintenance strategy** for having the database perennial

# How WP6 works?

*Structure of the project regarding technical productions that are expected*

# When does WP6 deliver?

---

**Deliverables** to be produced by WP6:

**D10** - Database software conforming to the call for project requirements (month 20)

**D21** - filled database and user's manual (month 32)

**D23** - Strategy for maintaining the database after the end of the project (month 36).

Month 1: January 2009

# Who works in WP6?

---

- **LCPC** (J.B. GOBERT - WP6 leader, Y. DESCANTES)
- **SGI** (M. ARM - WP7 leader)
- **LNEC** (M. DE LURDES ANTUNES)
- **DRI** (K.A. PIHL - WP2 leader)
- **KTI** (L. GASPAR - WP3 leader)
- **TUBs** (K. MOLLENHAUER - WP4 leader)
- **BRRC** (L. DE BOCK - WP5 leader)

+ **NET/PSYS** (subcontractor for the database)  
ingénierie informatique

# WP6 results so far

---

- A **questionnaire** (<http://direct-mat.fehrl.org/>) which helps to gather the point-of-views, areas of interest and contacts of potential users,
- A **structure for the database** which will organise the database content,
- A common **check-list** which synthetises the data to be collected for the field and laboratory case studies.
